	Milestone Review	Feature	Expected Date of Completion	Actual Date of Completion	Comments
		Implement CI/CD	3/21/2021	3/21/2021	Finished Successfully; Deployed Successfully on heroku with continuous deployment
		Implement API Search	3/26/2021	3/24/2021	Finished Successfully; small bug where user sees recipes initially without querying first but full functionalitiy there otherwise
		Implement Authentication	3/31/2021	4/17/2021	Finished Successfully; Full and secure authentication through jwt and http only cookies
		Implement user-made recipes	4/1/2021	Wont be implemented; Decided to go with another more complex feature that was finished successfully	Decided to go with another feature similar to youtube playlists where users can add recipes from searching the recipe api to a category of that they created. This newly decided feature was implemented successfully
		Implement Review Section	4/11/2021	Wont be implemented	Not enough time
		Implement Authorization	4/14/2021	4/22/2021	Finished Partially; no user roles like admin with an admin board to ban users because there was no review section where people could post bad comments
		User Friendly Interface	4/16/2021	Not Finished Yet	Still Finalizing the styling and should be finished 100% the weekend before project submission due date
		Project Submission	4/18/2021	Not Finished Yet	Need to purchase a domain name also no need to submit project as early as April 18th since the project is due within the first week of May
